single, black aluminium lever with LED
brushed dark grey

VIRTUOSO AND CLASSY

Chopin's front cover comes in all Basalte
luxury finishes allowing **a consistent and
minimalist look.**

Composed comfort

Controlling Chopin feels a bit **like playing the piano.** Push the levers up or down to intuitively dim the lights, close the curtains and let your favourite music enter the room. Press and hold the levers for even more functions.

Chopin works with KNX, Crestron® and Lutron® systems with a LED light indicating its status. An internal temperature sensor discretely reports the room temperature to the smart home system. The integrated thermostat function does the rest.

Moreover, Chopin is also available in a dry contact closure version.

single gold-plated lever
bronze

Built to last

Opt for 1 or 2 levers in 3 different finishes: black aluminium, chromed or gold plated, **creating a sophisticated and timeless appearance.**

Made in Belgium to the high standards for which Basalte products are known, Chopin is precision-machined from one piece and **carefully assembled by hand.**

Its fine mechanics are supremely durable and, despite miniature construction, stand the test of time.
